Alexis LAFRANCE

Fullstack web developer

Portfolio: alexis-lafrance.com github.com/alafrance linkedin.com/in/alexis-lafrance

Passionate about web development and data science, I had the opportunity to live in Montreal for two years in a multicultural environment and working as a fullstack web developer. Graduated from 42 School, I later choose to specialize in Python and React to combine both of my passions.

COMPÉTENCES

Frontend & Design React, Redux, Next.js, Tailwind, Vitest, Jest, Typescript, Vue.js, Figma

Backend & Data FastAPI, Django, Node.js, Nest.js, Ruby On Rails, GraphQL, Postman, Postgresql, Mongodb

DevOps Docker, AWS, Kubernetes (débutant), GitHub Actions, CI/CD Machine Learning Python, Pandas, Numpy, Matplotlib, Scikit-learn, Keras, LaTeX

Language French (native), English (fluent), Japanese (Beginner, N4 contest in progress)

Qualities Autonomy, Self-taught, Curiosity, Rigor, Team spirit

EXPÉRIENCES

Fullstack web developer | Affordance

04-2023 / 10-2024

MongoDB, AWS, Docker, GraphQL, Postman, Vue.js, Tailwind, Typescript, Figma, Ruby On Rails

Montréal (CDI)

- Maintaining and improving a Ruby On Rails RESTful API connected to a Mongodb database, in a multi-site environment managing +10 platforms.
- Lead fullstack developer (solo) on a gamified educational web application developed in WebGL, Typescript. Project delivered in +7-8 months used by students from Toronto to discover the basics of sociology, anthropology, and psychology in a playful way.
- **R&D** and realization of a **comparative benchmark** on the integration of **AI models** (generative, OCR, NLP) and **video game engines for the web** (Unity, Unreal, Godot, Phaser, etc...) to optimize development.
- Development of a web prototype in **Vue.js**, **Tailwind and Firebase** so that all teams in the open space (+7-8 companies) can communicate and help each other between services.

Fullstack web developer | Edgenda

11-2022 / 04-2023

React, Redux, Tailwind, Typescript, Figma, AWS, AWS S3, AWS Cognito, AWS API Gateway, AWS Lambda

Montréal (CDI)

- Design and development of an **Edtech platform** using **AI code analysis**, code review and questionnaire aimed at improving the **skills of any developer**.
- **UX/UI** design on **Figma** and frontend development with **React** and **Redux**, integrating an interactive dashboard, with recommendations, dynamic graphs via **Chart.js** and assessment questionnaires.
- Creation of the RESTful API with AWS API Gateway, AWS Lambda, AWS S3 and AWS Cognito for user management and platform scalability.

FORMATIONS

Master in Computer Science | 42 School Paris

07-2020 / 04-2025

Web (Vue.js, Nuxt, Node.js, PostgreSQL), **Machine Learning** (Python, Pandas, Numpy, Matplotlib, Scikit-Learn, Keras), **Low Level** (C, C++, Rust), **Devops** (Docker, Kubernetes)

- Completed more than **30 projects**, often in groups, including solid foundations in programming in C, C++, Docker and a **specialization** in **web development** and **data science**.
- Created complete projects such as a clone of Instagram/Tinder, Tetris multiplayer, Pong with chat, implementation from scratch of the lib in C, a web server Nginx in C++ and models such as linear regression, logistic regression, neural network, CNN in Python.

Bac+2 Web Development | OpenClassrooms, Lyon

10-2019/05-2020

PROJETS

Evolution of the French coast: alafrance.github.io/littoral-francais

React, Figma, Python, Sklearn, Fastapi, Postgresql

- Challenge data.gouv.fr on climate: analysis of the evolution of the French coast via open data from Météo France (csv) and data.gouv.fr (Postgresql).
- Interactive web application: API Fastapi with ML (sklearn), frontend React + D3.js (graph), design on Figma.

Portfolio: alexis-lafrance.com

React, Next, Tailwind, Figma, Django

NAS: Home server (streaming, photos cloud, and web)

Raspberry pi, Docker, Docker Compose, CloudFlare, OVH, Ubuntu
